## **2014 Maryland Farms and Land in Farms**

The number of farms in Maryland for 2014 is estimated at 12,300, down 100 farms from 2013, according to Dale Hawks, State Statistician of USDA's National Agricultural Statistics Service, Maryland Field Office. Total land in farms, at 2.0 million acres, is unchanged from 2013. The average farm size for 2014 is 165 acres, up 1 acres from the previous year.

Farm numbers and land in farms are differentiated by six economic sales classes. Farms and ranches are classified into these six sales classes by summing the sales of agricultural products and government program payments. Sales class breaks occur at \$10,000, \$100,000, \$250,000, \$500,000, and \$1,000,000. Producers were asked during the 2014 mid-year surveys to report the value of sales based on production during the 2013 calendar year.
